NOTES:

A. The list of street names above represents all names of signs available for purchase. This list will be updated periodically as signs are replaced and sold; however, completing an application does not guarantee that another applicant has not already reserved a sign for purchase. City staff will respond to applicants via email to confirm availability.

B. Several street names listed above have multiple signs available for purchase. In the case of multiple applicants requesting the same street name sign staff will attempt to provide the best condition sign to the earliest submitting applicant.

C. If any of the desired signs applied for are unavailable, City staff will reply via email to alert the applicant.

D. All available signs are in "used" condition and have varying degrees of weathering, wear and tear. Applicants will have the opportunity to review their selected sign condition at City Hall directly prior to purchase/pick-up.
